

Proclear® sphere

Clear vision¹ and comfort for contact lens wearers who experience eye dryness.

CooperVision®
Live Brightly.™

If you're short-sighted or long-sighted and experience eye dryness and irritation during lens wear, CooperVision® Proclear® contact lenses may help. They're made with PC technology™ which was specially created for contact lens wearers like you; it binds water to your lenses, helping them remain fresh and comfortable all day long. Focus on life and not on your contact lenses with Proclear®.

Features & Benefits

- Provides clear vision for contact lens wearers who are short-sighted or long-sighted.
- PC technology™ binds water throughout each Proclear® contact lens, creating a shield around it, keeping the contact lens clean. Contact lenses stay hydrated, helping them feel moist and comfortable throughout the day.
- The Proclear® lens material helps you avoid eye irritation by resisting deposit build-up over the course of your day.
